ABOUT ME
im a professional software + Fullstack Web developer , and build ~~good~~ great looking websites, and high performance software. gross value of projects INR 350,000

DEAR HR & INTERVIEWERS
if you are interviewing me, dont ask trivial memory based questions whose answers are already available on web. in a prefect world we , evaluate the approach to arrive at solution. if the company's interview process mandates such rules, sorry im not a good fit.

DEVELOPER STORY
my journey started in 2018 when i realized that the education system is a scam. if you got to make it big, you need to fail big. In my journey , i have built several websites for clients and companies, on an average day i work for 8-10 hours , with regular intervals. sunday is fun day to explore new technologies

SKILLS

Frontend (HTML & CSS BS4)

Python — 95%

Javascript — 85%

AWS

IQ & Common Sense — 999

Willingness To Learn — ∞

LOGO

SWAMIX

More Skills

Languages:
Python, Javascript, Rarely PHP or C++.

JS: Node, Express, Multer, AWS-SDK. async await, ES2016+, PM2(process manager). NVM.
Py: Django, FastAPI, Flask, Requests, BeautifulSoup,TensorflowML, Numpy , Pandas, MultiThreading Almost everything i tried with python.

Databases:
MongoDB, DynamoDB, PostgresSQL, Redis

Devops:
SSH, Docker, Git, Github CI/CD, Shell scripting in Windows and linux both,

WORK EXPERIENCE

FullStack Developer
TECHBINGE INDIA PVT LTD (2022/03 to Present)
Responsible For Developing Client Ideas to reality, made Luxury Cab Booking System, Called Mosooklimo.com , Using NodeJS, AWS, MongoDB, Express for the backend. and for the frontend my team used Jquery, Bootstrap 5, SweetAlert, React Etc. More details in project section. make amendments in project structure when their requirement change. it increased my understanding of how to respond quickly in a changing environment.

FullStack Developer
LIPI FASTBOOKTRIP OPC PVT LTD (2021/12 TO 2022/04)
Assigned the task to develop websites for company's different segments like Paper Distribution, Travel Booking, Holiday Etc. Worked with several API like SMS, Payment Gateway, Global Distribution System (GDS). Interact with clients which greatly improved my communication skills.

Teaching Associate
ANCENT INDIA TECHNOARTS PVT LTD (2021/08 TO 2021/12)
Instructed High School and College Students About Python Programming, C++ Language DevOps Practices Basics, and other computer IT related studies. teaching students boosted my understanding in core fundamentals of computer science and programming.

FullStack Developer
YOUR COMPANY HERE (ANYTIME TO ANYWHERE)
What i learned from your company , what projects i did. how much impact did i make will be written in this section. lets build something exciting. something we can be proud of.

EDUCATION

Jawaharlal Nehru University
2018 - 2023 B.Tech + MS. Management

FAQ
Do you like Great User Interfaces?

I like great user interfaces! i make it my mission that every product i create, would be the best work of my life.

What Hardware do you use?

I highly prefer working on desktop, at my home i have i7-8700k and dual monitor 24 inches setup, RAM 16GB . and for some editing, games and crypto mining i have 3 graphics cards GTX 1060, RTX 3060, RTX 3070. so please keep good hardware at your office, as working there should not feel a downgrade.

Your Confidence Level?

i have taken several IQ tests and the aggregate score was 130-140. read more . well i may not outperform an expert but i can play good with designing and editing, product management. i did software development for 7500+hrs .

Your Beliefs Bro?

i believe in test driven development, and like to work with highly motivated candidates who would can go to the moon to solve critical problems. lazy people stay away! i would like little autonomy over work, and don't prefer a manager approving or rejecting work, i prefer talking with clients directly. but adjustments will be made.
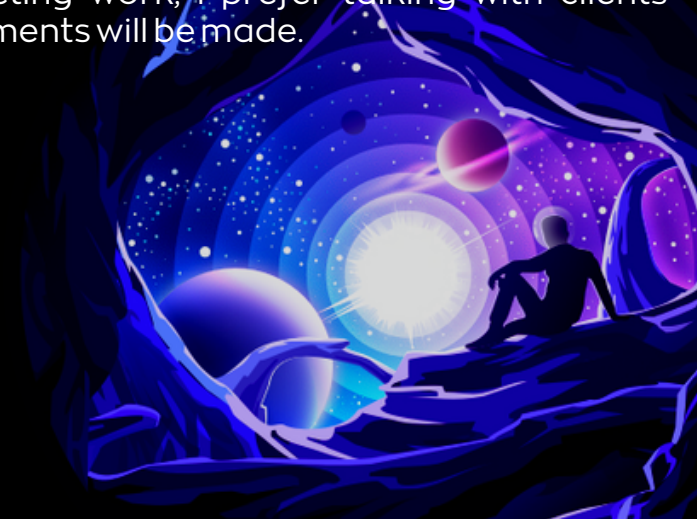

LETS TALK MONEY

Why? financials must be clear for mutual understanding. **Dont Ask in interview.**

Work From Home

- If working from home my salary expectation is 8.5 LPA
- so in hand salary after taxes becomes 8lpa (75k/month) .
- work commitment 60 hours per week.
- max concurrent projects =2
- max trainees under me =2 (teaching is a demanding role)
- unlimited online meetings with team and clients.
- progress report every alternate day
- office visit once a month, max 2 times. (company sponsored)
- day available from 9AM to 11PM. night duty possible on demand. supported times Central European Time (CET), Australia Central Time (ACT), Indian Standart time (IST), Middle East Time (MET), Pacific and eastern time zone in USA.

Work From Office

- work from office = 12LPA in hand. =13.25LPA Tax normalized.
- Please dont do CTC and pay peanuts after deductions. you may feel happy, not me.
- Travel, Food, Rent are expensive if you know. Travel time to office around 1 hour is permanently lost, so compensation must be adequate.
- Just a reminder (have you ever seen such a resume?)
- Deductions on arriving late are acceptable, it will make me more disciplined.
- Coffee machine must be there in office.
- Hi-performance Computer near to the hardware mentioned in FAQ and laptop for home work.
- Joining bonus of 15 days equivalent must be provided. for setting things dedicated to you.
- not all conditions mentioned above need to be followed if you have any legal constraints let me know, **we may come to agreement.**
